

## ELECTRONIC MEDICAL RECORDS HOSTING

The following EMR/Practice Management group is one that TRIIUM has selected as a Qualified Business Resource Partner to help clinics with EMR/Practice Management Systems.

MMIC Health IT, a subsidiary company of MMIC Group, is your *total solution* for health care information technology needs. They are NextGen's #1 Value-Added Reseller of Electronic Medical Records (EMR) and Practice Management Systems (PMS).

They provide consulting and implementation services, managed IT services, physician billing and website development and hosting, along with excellent technical support and customer service.

MMIC's knowledge of medical practices gives them a unique ability to help physicians identify the right technology to help them reduce expenses, increase revenue and provide optimal patient care. They assist clinics of all sizes and offer custom solutions that meet the unique needs of each practice.

As your provider of *total technology solutions*, MMIC brings a holistic approach to your practice's IT needs.
