

ELECTRONIC MEDICAL RECORDS and HEALTH INFORMATION TECHNOLOGY SERVICES

The following EMR/Practice Management group is one that TRIIUM has selected as a Qualified Business Resource Partner to help clinics with EMR/Practice Management Systems.

MMIC Health IT is your total solution for health care information technology needs. They are the Midwest NextGen value-added reseller of electronic health records (EHR) and practice management systems (PMS).

MMIC Health IT approaches healthcare technology differently from other service providers. They are a group of IT professionals who are energized by delivering the right level of technology to health care organizations so you can improve workflow, reduce frustration, and help raise the level of care.

Their mission is to provide the right level of technology for each practice – big or small, specialty or primary care – to help providers implement and use technologies that assist them in delivering quality care and help reduce risk. They are a certified NextGen reseller offering you the highest level of service and support for NextGen EHR and EPM. But, beyond that, they offer health IT services and products to help your practice run smoothly. That includes everything from designing and hosting your website to helping you achieve meaningful use with your technology choices to hardware and network services.

Every practice is different. We offer the level of technology and support you need at the right time.

**Please call MMIC Health IT at: 877-838-6869 or email them at:
