

PDS, Inc. was established in 1998. As of January 2010, PDS' partners number over 40 in seven states.

From its corporate headquarters in Fargo, North Dakota, PDS, the CPAP Store & SleepEasy Therapeutics are ready to serve you.

PDS collaborates with healthcare facilities and physicians to establish much needed programs for sleep disorders. With PDS as your partner, you can offer full-service diagnostic and treatment capacities within your facility. To help you establish a sleep program, PDS provides consultation, equipment and virtually every aspect of service for success – and a relationship built on collaboration.

Using state of the art digital technology, PDS has grown to be one of the largest providers of sleep disorder diagnostic services to health care facilities in the country, all while maintaining their dedication to customer service.

At the CPAP Store & SleepEasy Therapeutics, our model is uniquely different from other DME providers in that we focus solely on the treatment and follow up of patients suffering from sleep disorders. Specific care plans and intensive follow up have been shown to increase hours of nightly use of CPAP by 40 percent and is very cost effective. Studies have shown patients' physician costs dropped by 1/3 and the number of hospital days dropped by 50 percent in patients adhering to treatment.
